INDEPENDENT AUDITORS' REPORT

To the Town Council
Town of Gila Bend, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Gila Bend, Arizona, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Gila Bend, Arizona, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

The Town of Gila Bend, Arizona has not presented the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, Schedule of the Town's Proportionate Share of the Net Pension/OPEB Liability – Cost-Sharing Plans, and Schedule of Town Pension/OPEB Contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Compliance Over the Use of Highway User Revenue Fund and Other Dedicated State Transportation Revenue Monies

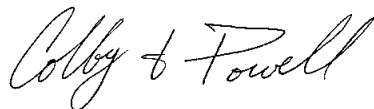

In connection with our audit, nothing came to our attention that caused us to believe that the Town failed to comply with the authorized transportation purposes, insofar as they relate to accounting matters, for Highway User Revenue Fund monies it received pursuant to Arizona

Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated state transportation revenues it received. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Town's noncompliance with the authorized transportation purposes referred to above, insofar as they relate to accounting matters.

The communication related to compliance over the use of Highway User Revenue Fund and other dedicated state transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the Auditor General of the State of Arizona, the Board of Supervisors, management, and other responsible parties within the Town and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 30, 2021, on our consideration of the Town of Gila Bend, Arizona's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Gila Bend, Arizona's internal control over financial reporting and compliance.

Governmental Funds
Year Ended June 30, 2020

Net change in fund balances-total governmental funds		\$ 1,612,058
Amounts reported for governmental activities in the Statement of Activities		
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.</p>		
Capital outlay	550,858	
Depreciation expense	<u>(395,163)</u>	155,695
<p>Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.</p>		
Property taxes		303
<p>Town pension/OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the statement of net position because the reported net pension/OPEB liability is measured a year before the Town's report date. Pension/OPEB expense, which is the change in the net pension/OPEB liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.</p>		
Town pension/OPEB contributions	123,482	
Pension/OPEB expense	<u>(57,642)</u>	65,840
<p>Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.</p>		
Debt principal repaid		30,163
<p>Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.</p>		
Increase in compensated absences payable		<u>(2,187)</u>

TOWN OF GILA BEND, ARIZONA
Notes to Financial Statements
June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Town of Gila Bend, Arizona have been prepared in conformity with U.S. generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). A summary of the Town's more significant accounting policies follows.

A. Reporting Entity

The Town is a general-purpose local government that is governed by a separately elected Town Council. The accompanying financial statements present the activities of the Town (the primary government) and its component units.

Component units are legally separate entities for which the Town is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the Town's operations. Therefore, data from these units is combined with data of the primary government. The component units discussed below have a June 30 year-end.

Gila Bend Municipal Property Corporation (GBMPC) is an Arizona nonprofit corporation incorporated under the laws of the State of Arizona. The principal objective of the Corporation is to assist the Town of Gila Bend, Arizona in obtaining financing for various projects of the Town. GBMPC is a blended component unit.

Merrill Paloma Ranch Community Facilities District (MPCFD) and the **Sonoran Trails Community Facilities District (STCFD)** are Arizona nonprofit corporations incorporated under the laws of the State of Arizona. The principal objective of the Districts is to assist the Town of Gila Bend, Arizona in developing these specific communities. MPCFD and STCFD are blended component units. These districts had no activity during the fiscal year.

B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the Town as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

Government-wide statements – provide information about the primary government (the Town) and its component units excluding fiduciary activities. The statements include a statement of net position and a statement of activities. These statements report the financial activities of the overall government. They also distinguish between the governmental and business-type activities of the Town. Governmental activities generally are financed through taxes and

TOWN OF GILA BEND, ARIZONA
Notes to Financial Statements
June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities and each segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Town does not allocate indirect expenses to programs or functions. Program revenues include:

- ◆ charges to customers or applicants for goods, services, or privileges provided,
- ◆ operating grants and contributions, and
- ◆ capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

Fund financial statements – provide information about the Town's funds, including blended component units. Separate statements are presented for the governmental, proprietary, and fiduciary fund categories. The emphasis of fund financial statements is on major governmental, enterprise, and fiduciary funds, each displayed in a separate column. All remaining governmental, enterprise, and fiduciary funds are aggregated and reported as non-major funds.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges and insurance premiums, in which each party receives and gives up essentially equal values are operating revenues. Other revenues, such as subsidies, result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues ancillary activities generate. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered nonoperating expenses.

TOWN OF GILA BEND, ARIZONA
Notes to Financial Statements
June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

The Town reports the following major governmental funds:

The ***General Fund*** is the Town’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The ***HURF Fund*** accounts for specific revenue received from the State of Arizona Highway User Revenue Fund, which is legally restricted to expenditures for authorized transportation purposes.

The ***Social Services Fund*** accounts for specific revenue received from Maricopa County and the Area Authority on Aging that is legally restricted to expenditures for specified purposes.

The Town reports the following major enterprise funds:

The ***Water and Sewer Fund*** and ***Ambulance Fund*** account for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the Town Council is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or for which the Town Council has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Additionally, the Town reports the following fiduciary fund type:

The ***Firefighters’ Relief and Pension Trust Fund*** accounts for activities of the Firefighters’ Relief and Pension Fund, which accumulates resources for pension benefit payments to qualified firefighters.

C. Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Under the terms of grant agreements, the Town funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The Town applies grant resources to such programs before using general revenues.

TOWN OF GILA BEND, ARIZONA
Notes to Financial Statements
June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Town considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The Town's major revenue sources that are susceptible to accrual are property taxes, special assessments, intergovernmental, charges for services, and investment earnings. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, landfill closure and postclosure care costs, and pollution remediation obligations, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

D. Cash and Investments

For the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits, investments in the State Treasurer's local government investment pool, and only those highly liquid investments with a maturity of three months or less when purchased.

E. Allowance for Uncollectible Accounts

Allowances for uncollectible accounts receivable in the proprietary funds are estimated by the Town. The amount recorded as uncollectible at June 30, 2020 for the Water and Sewer Fund and the Ambulance Fund were \$32,945 and \$649,650, respectively. It is the Town's policy for accounts receivables greater than 60 days past due to terminate services and or negotiate a contractual repayment plan.

F. Property Tax Calendar

The Town levies real property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

The Town also levies various personal property taxes during the year that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days thereafter.

A lien against real and personal property assessed attaches on the first day of January preceding assessment and levy thereof.

G. Capital Assets

Capital assets are reported at actual cost (or estimated historical cost if historical records are not available). Donated assets are reported at acquisition value.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Land	\$ 1,000	n/a	n/a
Construction in progress	1,000	n/a	n/a
Land improvements	1,000	Straight-line	20

Flouride treatment plant	1,000	Straight-line	50
Pressure and storage system	1,000	Straight-line	25
Infrastructure	1,000	Straight-line	20

H. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

I. Compensated Absences

Compensated absences consist of leave time earned by employees based on services already rendered.

Employees may accumulate up to 160 hours of vacation depending on years of service, but any vacation hours in excess of the maximum amount are forfeited. Upon termination of employment, all unused vacation benefits are paid to employees. In addition, any employee with ten years or more of service is paid \$1 for any unused and accrued hour of sick time upon

termination. Accordingly, these benefits are accrued as a liability in the government-wide and proprietary fund financial statements.

J. Deferred Outflows/Inflows of Resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

K. Fund Balance Reporting

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations that the Town Council has approved, which is the highest level of decision-making authority within the Town. Only the Town Council can remove or change the constraints placed on committed fund balances.

Assigned fund balances are resources constrained by the Town's intent to be used for specific purposes, but that are neither restricted nor committed. The Town Council has authorized the Town manager to assign resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the Town's policy to use (the Town will use) restricted fund balance first. It is the

Town’s policy to use (the Town will use) committed amounts first when disbursing unrestricted fund balances, followed by assigned amounts, and lastly unassigned amounts.

L. Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans’ fiduciary net position and additions to/deductions from the plans’ fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. Budgets

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at year end. The Town is subject to the State of Arizona’s Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the carry-over unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complied with this law during the year.

Expenditures may not legally exceed budgeted appropriations at the department level. The individual budgetary comparison schedules as listed in the table of contents present all major governmental funds which incurred an excess of expenditures/expenses over appropriations for the year ended June 30, 2020, if any.

NOTE 2 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial insurance for all such risks of loss, including workers’ compensation and employees’ health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

TOWN OF GILA BEND, ARIZONA
Notes to Financial Statements
June 30, 2020

NOTE 3 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the Town to invest public monies in the State Treasurer’s investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes, and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the Town Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

Credit risk

Statutes have the following requirements for credit risk:

1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
2. Bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars must be rated “A” or better at the time of purchase by at least two nationally recognized rating agencies.
3. Fixed income securities must carry one of the two highest ratings by Moody’s investor’s service and Standard and Poor’s rating service. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

Custodial credit risk

Statutes require collateral for deposits at 102 percent of all deposits federal depository insurance does not cover.

Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

TOWN OF GILA BEND, ARIZONA
Notes to Financial Statements
June 30, 2020

NOTE 3 – DEPOSITS AND INVESTMENTS – Continued

Foreign currency risk

Statutes do not allow foreign investments unless the investment is denominated in United States dollars.

The Town’s investment policy states that the Town will conform with Arizona Revised Statutes. The Town does not have a formal investment policy with respect to custodial credit risk, concentration of credit risk, or foreign currency risk.

Deposits—At June 30, 2020, the carrying amount of the Town’s total cash in bank was \$3,291,706, and the bank balances were \$3,373,930. Of the bank balances, \$1,226,886 was covered by federal depository insurance or similar insurance. The remaining bank balance was covered by collateral held by the pledging financial institution in the Town’s name.

Investments—The Town reported investments in the State Treasurer’s Investment Pool 5 with a reported amount of \$228,722. The Standard and Poor’s credit quality rating of the pool is AAA.

The Town reported investments in the State Treasurer’s Investment Pool 7 with a reported amount of \$35,299. Pool 7 is unrated.

The Town’s Pension Trust Fund had investments in mutual funds of \$196,680 at June 30, 2020, categorized within the fair value hierarchy established by generally accepted accounting principles as Level 1. Investments categorized as Level 1 are valued using prices quoted in active markets for those investments.

Investments in the State Treasurer’s investment pools are valued at the pool’s share price multiplied by the number of shares the Town held. The fair value of a participant’s position in the pools approximates the value of that participant’s pool shares. The State Board of Investment provides oversight for the State Treasurer’s investment pools.

A reconciliation of cash, deposits, and investments to amounts shown on the statements of net position follows:

The Town reported \$123,482 of pension and OPEB expenditures in the governmental funds related to the pension plan to which it contributes.

A. Arizona State Retirement System

Plan Description – All eligible town employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at www.azasrs.gov.

Benefits Provided – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefits terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

*With actuarially reduced benefits.

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member’s death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member’s account balance that includes the member’s contributions and employer’s contributions, plus interest earned.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service or the service on record as of the effective disability date if their service is greater than 30 years.

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2020, statute required active ASRS members to contribute at the actuarially determined rate of 12.11 percent (11.94 percent for retirement and 0.17 percent for long-term disability) of the members’ annual covered payroll, and statute required the Town to contribute at the actuarially

determined rate of 12.11 percent (11.45 percent for retirement, 0.49 percent for health insurance premium benefit, and 0.17 percent for long-term disability) of the active members’ annual covered payroll. The Town’s contributions to the pension, health insurance premium benefit, and long-term disability plans for the year ended June 30, 2020, were \$160,140, \$6,591, and \$2,309, respectively.

During fiscal year 2020, the Town paid for ASRS pension and OPEB contributions as follows: 73.05 percent from the General Fund, 5.80 percent from the Water and Sewer Fund, and 21.15 percent from the Ambulance Fund.

Liability - At June 30, 2020, the Town reported the following asset and liabilities for its proportionate share of the ASRS’ net pension/OPEB asset or liability.

	Net Pension/OPEB (Asset) Liability
Pension	\$ 1,906,202
Health insurance premium benefit	(3,568)
Long-term disability	8,436

The net asset and net liabilities were measured as of June 30, 2019. The total liability used to calculate the net asset or net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2018, to the measurement date of June 30, 2019. The Town’s proportion of the net asset or net liability was based on the Town’s actual contributions to the plan relative to the total of all participating employers’ contributions for the year ended June 30, 2019. The Town’s proportions measured as of June 30, 2019, and the change from its proportions measured as of June 30, 2018, were:

	Proportion June 30, 2019	Increase (decrease) from June 30, 2018

The amounts reported as deferred outflows of resources related to ASRS pensions and OPEB resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net asset or a reduction of the net liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized as expenses as follows:

Year ended June 30,	<u>Pension</u>	<u>Health Insurance Premium Benefit</u>	<u>Long-Term Disability</u>

2024	11,475	867	418
2025	-	(101)	351
Thereafter	-	-	499

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

ASRS

Actuarial valuation date	June 30, 2018
Actuarial roll forward date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.5%
Projected salary increases	2.7 - 7.2% for pensions/not applicable for OPEB
Inflation	2.3%
Permanent benefit increase	Included for pensions/not applicable for OPEB
Mortality rates	2017 SRA Scale U-MP for pensions and health insurance premium benefit
Recovery rates	2012 GLDT for long-term disability
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

NOTE 7 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The long-term expected rate of return on ASRS plan investments was determined to be 7.50 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Geometric Real Rate of Return
Equity	50%	6.09%
Credit	20%	5.36%
Interest rate sensitive bonds	10%	1.62%
Real estate	20%	5.85%
Total	100%	

Discount Rate – The discount rate used to measure the ASRS total pension/OPEB liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans’ fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Notes to Budgetary Comparison Schedules
June 30, 2020

NOTE 1 – BUDGETING AND BUDGETARY CONTROL

A.R.S. requires the Town to prepare and adopt a balanced budget annually for each governmental fund. The Town Council must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Expenditures may not legally exceed appropriations at the department level. In certain instances, transfers of appropriations between departments or from the contingency account to a department may be made upon the Town Council's approval. With the exception of the General Fund, each fund includes only one department.

NOTE 2 – BUDGETARY BASIS OF ACCOUNTING

The Town's budget is prepared on a basis consistent with generally accepted accounting principles.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Town Council
Town of Gila Bend, Arizona

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Gila Bend, Arizona, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Gila Bend, Arizona's, basic financial statements, and have issued our report thereon dated March 30, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Gila Bend, Arizona's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Gila Bend, Arizona's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Gila Bend, Arizona's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be a material weakness. That item is listed as item **2020-001**.

Compliance and Other Matters

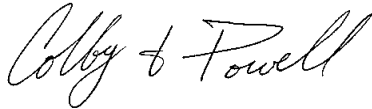

As part of obtaining reasonable assurance about whether the Town of Gila Bend, Arizona's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Town of Gila Bend, Arizona's Response to the Finding

The Town of Gila Bend, Arizona's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The Town of Gila Bend, Arizona's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TOWN OF GILA BEND, ARIZONA
Schedule of Findings and Responses
June 30, 2020

Item: 2020-001

Subject: General ledger maintenance and reconciliation.

Criteria/Specific Requirements: To help ensure that internal and external financial reports are accurate, timely, and in accordance with generally accepted accounting principles, general ledger accounts should be reconciled on a monthly basis and supporting schedules should be prepared and reconciled with these general ledger accounts.

Condition: At the time of the audit, the Town had incorrect balances in many of its asset and liability accounts. Significant audit adjustments were necessary in order to present the financial statements in accordance with generally accepted accounting principles. These entries were proposed, accepted, and recorded by the Town in the financial statements.

Cause/Effect: Due to employee oversight, the need of proper training, and lack of management's review of performance, internal control procedures such as reconciliations of various general ledger accounts were not performed.

Recommendation: The Town's Finance Department should evaluate and implement closing procedures that establish clear deadlines for recording transactions and reconciling accounts to the general ledger and subsidiary ledgers. The Finance Department should also evaluate procedures to ensure that all accounts are reconciled and supported by documentation.

Response: Management agrees with this finding and will evaluate and implement closing procedures that will establish clear timelines and deadlines for recording transactions and reconciliations to the general ledger and sub ledgers.
